Public Resources

The below resources are compiled by different agencies ranging from government to private non-profit organizations to help you gather more information.

**LeapFrog** has put together:

- 2019 Survey of hospitals to help you understand if a hospital provides safe, high-quality care.
- Understand C-section rates
- Pathway to a healthy birth

**The Office of Women’s Health** created an all-inclusive resource regarding maternal care, labor, and newborn care. These resources are helpful in understanding how to care for both the mom and the baby during and following birth.

Find Your **Community’s Cesarean Section Rate**. The U.S. News and World Report showcases county based cesarean rates for 2016-2018.

**Centers for Medicare & Medicaid Services** is a governmental resource that provides hospital ratings. This can help to provide general information about the facility.
